

Ayush Jha

AI/ML Engineer | Generative AI Solution Developer | Databricks & Spark | MS DevOps Expert | Salesforce Certified

✉ official.ayushjha@gmail.com in 00-ayush-jha A-jha383 ayushj383

Profile Summary

AI/ML Engineer and Advanced GenAI Solution Developer with 3+ years of experience building production-grade AI systems and scalable data platforms. Currently pursuing an M.Sc. in Computer Science at Universität Paderborn while working as a Working Student (Technical Consultant) at RealThingks GmbH, building data analytics pipelines and AI-driven solutions for global automotive manufacturers. Previously Senior System Analyst (L5) and Senior Software Engineer at InterraIT, delivering enterprise-grade Generative AI, multi-agent systems, and RAG pipeline solutions for clients. Strong expertise in Python, Databricks, Spark, and cloud platforms (Azure & AWS), with a track record of delivering robust, scalable, high-performance AI solutions end-to-end.

Technical Skills

Programming Languages: C, Python, C++, JavaScript, HTML, Java, CSS, C#, Bash, PowerShell, Visual Basic, DAX, Power Query

GenAI Frameworks & Packages: LangChain, Hugging Face, OpenAI API, Azure OpenAI, Transformers, LlamaIndex, Milvus, ChromaDB, FAISS, Prompt Engineering, RAG Pipelines

Frameworks & Libraries: React, Three.js, Next.js, ASP.NET, Flask, LangChain, Hugging Face

Cloud, Data & MLOps: Azure ML, AWS Bedrock, Databricks, Apache Spark, Docker, Azure DevOps, CI/CD, Containers

Databases: MySQL, MariaDB, MongoDB, Oracle, SQLite, Milvus, Vector Stores

Tools: Git, Azure, Power BI, Power Apps, Power Automate, Blender, AWS

Professional Experience

Working Student – Technical Consultant

RealThingks GmbH

NRW, Germany · Remote

May 2026 – Present

- Design and build data analytics pipelines that transform large-scale automotive data into actionable, decision-ready insights for enterprise clients
- Develop and deploy AI-driven solutions supporting engineering and business functions at major automotive manufacturers
- Architect scalable ETL/ELT workflows for structured and unstructured data using Python, Databricks, and Spark, applying statistical data analysis and knowledge engineering to complex automotive domain data
- Collaborate with cross-functional, cross-cultural teams to translate business requirements into production-grade technical solutions, upholding engineering rigor through code reviews, testing, and documentation – up to 20 hours/week alongside a Master's degree

Senior System Analyst – L5

Interra Information Technologies (India) Pvt. Ltd.

Kolkata, IN October 2025

– March 2026

- Worked as a Senior AI Engineer on LLM-based systems, agentic AI frameworks, MLOps platforms, and AI-driven data solutions
- Contributed to scalable, production-grade enterprise AI systems for global clients

Senior Software Engineer – AI/GenAI

Interra Information Technologies (India) Pvt. Ltd.

Kolkata, IN January 2023 –

October 2025

- Delivered AI/ML solutions for prominent global clients driving digital transformation initiatives
- Developed computer vision and deep learning models (CNNs, RNNs, Transformers) for object detection, image classification, and visual recognition using OpenCV, TensorFlow, and PyTorch
- Developed a modular Generative AI framework using Python, LLMs, and the Milvus vector database with hybrid RAG pipelines, and built a custom multi-agent bot system from scratch with real-time coordination and dynamic routing

- Designed and deployed scalable AI solutions on AWS and Azure, improving data insights across diverse data types and prediction accuracy by 35%

Software Development Intern

Remote April 2022 –

Steel Authority of India Limited (SAIL)

September 2022

- Designed enterprise IT application using Oracle, .NET, and Flutter for Reverse Mentoring Model
- Improved mentor-mentee matching efficiency by 40% through intelligent algorithms
- Delivered high-quality application through systematic testing and debugging

Education

Universität Paderborn

Paderborn, DE April 2026

Master of Science (M.Sc.) in Computer Science

– Present

Government College of Engineering And Ceramic Technology

Kolkata, IN 2019 – 2023

B.Tech (Honours) in Computer Science Engineering

- CGPA: 9.57/10.0 (Distinction)

Army Public School Sukna

Darjeeling, IN 2018

Higher Secondary Certificate (XII)

- Percentage: 81.8%

Leadership Experience

Microsoft Learn Student Ambassador

Kolkata, IN August 2021 –

Gold Level

July 2023

- Led technical workshops on Azure cloud services and AI development
- Collaborated with global tech community to promote skill development

Founding President

Kolkata, IN August 2021 –

Bytemonk

August 2022

- Led 10+ technical workshops on Azure and AI technologies, training 300+ students and increasing participation in cloud-based projects and hackathons
- Founded and scaled the college's first technology club to 150+ members, establishing mentorship programs and organizing 15+ technical events

Certifications

- **Microsoft Certified: Azure AI Engineer Associate** [↗](#)
- **Microsoft Certified: DevOps Engineer Expert** [↗](#)
- **Salesforce Certified: Agentforce Specialist** [↗](#)
- **Microsoft Certified: Power BI Data Analyst Associate** [↗](#)
- **Microsoft Certified: Azure Developer Associate** [↗](#)
- **Microsoft Certified: Fabric Analytics Engineer Associate** [↗](#)
- **Foundation of Cloud IoT Edge Machine Learning** [↗](#)

Awards & Recognition

- **"Star Rookie of the Year 2024"** - InterralT for exceptional AI project contributions
- **"Promising Junior Award Q4 2023"** - InterralT for technical leadership
